

UNBEARABLE FABULOSITY

Baby Phat clothing queen, wife of multi-millionaire hip-hop mogul Russell Simmons, and force of nature, 29-year-old Kimora Lee Simmons lives larger than large and tells it exactly like it is: she's no trophy. Thanks to an exploding empire of Kimora makeup, fragrance, Barbies, books, and TV, she can pay for her own diamond and Birkin-bag shopping sprees on St. Barth's. But the hardest thing she's ever done might be her marriage, she tells NANCY JO SALES, what with all the bitches going after her husband (and him always stealing her razor)

Kimora has been under the care of a nutritionist, Oz Garcia, the "nutritionist to the stars." "He saved my life!" she told me. "Where are my supplements?!" she called to the staff at her office. "Tell Deebo to bring me my supplements!" Deebo is her driver. She's been on a vitamin drip.
